## THE COMPANY

Mohawk Special Cutting Tools is an innovative dynamic company, servicing the Medical Sector with unique and niche products: Mohawk has been dedicated to precision machining of custom surgical tools since 1981. Our capabilities incorporate the accurate machining and finish grinding of medical tools.

We understand the critical applications of the medical market and are diligent in our process to deliver components that will meet your expectations and will enhance your product performance. Medical micro-machining requires the ability to hold precise tolerances. Tolerances to within 0.0001", which are typical of complex medical components are the norm at Mohawk. Our highly skilled machinists combined with state-of-the-art technology ensure that you can expect a high quality part produced cost-effectively.

Types of Surgical Tools we offer:

- Bone Drills
- Femoral Drills & Reamers
- Taper Hip Reamers
- Patellar Reamers and Drills

Mohawk Specialty Cutting Tools is **ISO 9001** and **ISO 13485** compliant, ensuring all products are made to the highest standard and precision

## ORTHOPAEDIC INSTRUMENTS

One of Mohawk's key, growing areas of specialisation is orthopaedic surgery equipment and instruments. The company has demonstrated its commitment to research and development to address the needs of the Orthopaedic Industry. We have done this in order to continue to improve and become an innovator of cutting tools.

Mohawk specialises in quality, state of the art, cutting devices for the medical industry, utilising unique design capabilities in orthopaedic applications.
